CONFERENCE AIMS & SCOPE:

The purpose of the 4th International Conference on **Electric Power and Energy Conversion Systems** is to bring together researchers, engineers and practitioners from all over the world, interested in the advances of power systems, energy conversion, power electronics, and electric drives.

The objective of the conference is to provide scientific and professional interactions for the advancement of the electric energy field in the UAE and Gulf region. Recent development of complex systems such as distributed power systems, electric vehicles and traction systems, and renewable energy systems are encouraged.

The conference will feature oral and poster presentations. Invited speakers will focus attention on future trends in areas of interest to the conference. An exhibition area, with technical facilities, will be considered.

CONFERENCE TRACKS:

- Electric Machines and Drives
- Power Electronics
- High Voltage Engineering
- Power Distribution
- Power Systems
- Renewable Energy
- Smart Grid

SUBMISSIONS:

Papers describing original work are invited in any of the scientific areas of the conference. Prospective authors are invited to submit their manuscripts in the form of full papers (IEEE format, maximum of 6 proceedings pages) using our TrackChair online submission system: <http://epecs15.trackchair.com/>.

The proceedings will be included in the IEEE Xplore database. Additional information will be posted in the conference website www.epecs-conf.org.

IMPORTANT DATES:

Full paper submission:	June 15, 2015
Authors' notification:	August 31, 2015
Final paper submission and registration:	September 30, 2015
